

src/Utils/String/StringFormatter.hpp

```
graph BT; A[src/Utils/String/StringFormatter.cpp] --> B[src/Utils/String/StringFormatter.hpp]; C[src/Utils/UtilsFactory.cpp] --> B;
```

The diagram illustrates a header file dependency. At the top is a grey box containing the header file path 'src/Utils/String/StringFormatter.hpp'. Below it are two white boxes: 'src/Utils/String/StringFormatter.cpp' on the left and 'src/Utils/UtilsFactory.cpp' on the right. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include the header file.
